INDEX BY BODY SYSTEM

BILIARY TRACT, LIVER, SPLEEN AND PANCREAS

Page

Comparison of liver histology with ultrasonography in assessing diffuse parenchymal liver disease	26
Ultrasound detection of tuberculomas of the spleen	128
'Anoddia'	137
Biliary cystadenoma and cystadenocarcinoma: some unusual features	183
The value of ultrasound in predicting non-visualization of the gall-bladder on OCG: implications for imaging strategies in patient selection for non-surgical therapy of gallstones	186
Extra-hepatic biliary cystadenoma in association with adenomyomatosis of the gall-bladder	210
Tuberculous hepatic and splenic abscess	215
Haemoperitoneum secondary to spontaneous rupture of hepatocellular carcinoma: CT diagnosis	321
Paradoxical lack of ultrasound attenuation with gross fatty change in the liver	393
Sonographic demonstration of septicæmia with gas-forming organisms after liver transplantation	397
Unusual CT appearances in a case of Budd-Chiari syndrome	431

BONES AND JOINTS

Osteodystrophy in liver cirrhosis: detection and treatment evaluation using ⁹⁹ Tc ^m methylene diphosphonate bone scintigraphy	32
Ultrasound, computed tomography and magnetic resonance imaging in patellar tendinitis	52
Chondrosarcoma presenting as an anterior mediastinal mass	63
Dynamic bone imaging in the investigation of local bone pathology - when is it useful?	107
The role of ultrasound in the early diagnosis and management of heterotopic bone formation	190
Hypertrophic pulmonary osteoarthropathy in pulmonary metastatic disease. A case report and review of the literature	268
Glenoid hypoplasia: assessment by computed tomographic arthrography	316
MRI and sonography of the shoulder	323

BREAST

Radiological evidence of response to electrochemical treatment of breast cancer	84
The role of magnetic resonance imaging in the assessment of local recurrent breast carcinoma	197
Migration of localizing wires used in guided biopsy of the breast	251
The mammographic parenchymal patterns of women on hormonal replacement therapy	385
The mammographic parenchymal patterns of nulliparous women and women with a family history of breast cancer	389

CARDIOVASCULAR

The distribution of recurrent varicose veins: a phlebographic study	47
Acute renal vein thrombosis in renal allografts: new Doppler ultrasonic findings	125
Pulsatile tinnitus relieved by angioplasty	132
Extracranial carotid artery aneurysms following accidental injury: ten years experience	162
Survey on the use of pulmonary scintigraphy and angiography for suspected pulmonary thromboembolism in the UK	243
Misdiagnosis of an atypical pericardial cyst presenting in a patient with chest trauma	272
Diagnosis of cavo-portal shunt in inferior vena cava obstruction: comparison between venography and dynamic scintigraphy	274
Deep venous thrombosis diagnosed on indium-111 labelled white cell scanning	276
Colour Doppler ultrasound of the post-phlebotic limb: sounding a cautionary note	301
The right aortic arch revisited	305
Chest radiographs are unreliable in predicting thrombi in the left atrium or its appendage in rheumatic mitral stenosis	337
Magnetic resonance imaging of a right-sided cervical aortic arch with a congenital aneurysm	352
Hydatid cyst of the aorta	423
Bilateral massive internal jugular vein thrombosis in carcinoma of the thyroid: CT evaluation	433

CENTRAL NERVOUS SYSTEM (INCLUDING SKULL AND SPINE)

Transsellar sphenoidal encephalocele. Uncommon clinical and radiological findings	65
CT scanning in epidural lymphoma	95
Orbital fibrous histiocytoma: computed tomography in 10 cases and a review of radiological findings	117
A comparison of CT and MRI in the assessment of the pituitary and parasellar region	156
Incidental paranasal sinus abnormalities on MRI of the brain	252
Cerebral metastases from choriocarcinoma in the absence of detectable extracranial disease	278
Bilateral lacrimal gland enlargement: an unusual manifestation of dacryops	280
Tuberculosis of the spine - an unusual presentation	360

DIGESTIVE TRACT AND ABDOMEN

Painful irritable bowel syndrome and sigmoid contractions	113
Ultrasonic patterns in inflammatory bowel disease	171
Ultrasound changes in sclerosing peritonitis following continuous ambulatory peritoneal dialysis	176
Two unusual cases of pneumatosis coli	180
Ultrasound in the diagnosis of gallstone ileus	282
Enteroliths of small bowel diverticula	311
Arterioenteric fistulae: diagnosis and treatment by angiography	328
Rectal mucocoele following Hartmann's procedure	358
Duodeno-pericardial fistula	412
Duodenal obstruction due to hydrocalycosis	414

Persistent colonic spasm concealing a carcinoma – an uncommon diagnostic pitfall of the barium enema examination	417
Pelvic actinomycosis with the development and resolution of a recto-sigmoid stricture	420
The ultrasound and computed tomography appearance of mesenteric Castleman disease	429

EAR, NOSE, THROAT, MOUTH AND EYES

Computed tomography in malignant external otitis	166
Staging bone scintigraphy in nasopharyngeal carcinoma	314
Paravertebral muscle metastases from primary tongue and nasopharyngeal carcinomas	400

EDITORIALS, REVIEWS, OPINIONS AND PERSONAL VIEWS

Patient dose reduction in diagnostic radiology	2
Imaging after renal transplantation	4
Breast cancer screening: an appraisal	75
Breast cancer screening by mammography: an overview	77
Angioplasty for intermittent claudication	81
Resource management and imaging departments	149
The drainage of pancreatic fluid collections	153
New trends with endoscopic retrograde cholangiopancreatography	223
MRI of the spine	227
Predictions and premonitions	234
A transatlantic view of gallstone lithotripsy	295
Diagnosing splenic trauma	297
Ventilation perfusion imaging in respiratory disease	369

ENDOCRINE SYSTEM

Cystic papillary carcinoma of the thyroid gland: a new sonographic sign	121
Unusual appearance of a giant adrenal pseudocyst	349

HAEMOPOIETIC, LYMPHATIC, RETICULOENDOTHELIAL SYSTEMS

Cystic lymph node metastasis from occult thyroid carcinoma: a sonographic mimic of a branchial cleft cyst	213
Renal lymphoma in a patient with Waldenström's macroglobulinaemia	285

INTERVENTIONAL TECHNIQUES

Renal transplant vein stenosis: demonstration and percutaneous venoplasty of a new vascular complication in the transplant kidney	42
Biliary stenting for malignant jaundice. A district hospital experience	103
Cutaneous seeding following fine needle biopsy of colonic liver metastases	130
Interventional sialography: dornia basket removal of Wharton's duct calculus	205
Management of tract disruption due to radiologic T-tube extraction of a retained common bile duct stone	207
Embolization in traumatic intrarenal vascular injuries	262
Percutaneous treatment of a pancreatic duct fistula facilitated by an hydrophilic guide wire	347

PAEDIATRIC

Systemic air embolism: a complication of ventilator therapy in hyaline membrane disease	16
Mesenchymal hamartoma of the chest wall in infancy	24
CT and MR appearance of focal nodular hyperplasia of the liver in children with biliary atresia	88
Wilm's tumour: pre- and post-chemotherapy CT appearances	255
The empty rectum of plain X-ray. Does it have any significance in the neonate?	265
A case control study of Trisomy 21 and maternal pre-conceptual radiography	343

REPRODUCTIVE SYSTEM

Unusual hyperechoic ultrasound appearance of testicular Leydig cell tumour	260
A sonographic appearance of testicular lymphoma	341
Retroconversion of immature teratoma of the ovary: CT appearances	402

RESPIRATORY TRACT AND MEDIASTINUM

High-resolution computed tomography in extrinsic allergic alveolitis	8
Pulmonary neoplasms simulating interlobar pleural effusions	13
The radiology of Askin tumours	19
Pleural granulocytic sarcoma: CT characteristics	57
Tuberculous broncho-oesophageal fistula in the acquired immunodeficiency syndrome	60
CT and MRI in benign mediastinal haemangioma	91
Tracheobronchomegaly in association with ankylosing spondylitis	139
An appraisal of CT pulmonary density mapping in normal subjects	238
Delayed presentation of traumatic diaphragmatic hernia	246
A chest radiograph scoring system in adult cystic fibrosis: correlation with pulmonary function	308
Bilateral upper lobe pneumocystis carinii pneumonia in a patient receiving aerosolized pentamidine	356

Clinico-radiological correlates in rupture of the major airways	371
Detection of bronchiectasis by high-resolution computed tomography in the yellow nail syndrome	377
Congenital broncho-oesophageal fistula in the adult	380

TECHNIQUES, APPARATUS, CONTRAST MEDIA AND TRIALS

Iodide mumps following intravenous urography with iopamidol	135
Plasma osmolality, iodine concentration and urographic images following high and low osmolar contrast media	331
The use of the reformed Sidewinder loop in the dilated ureter	409

URINARY TRACT

Renal sonography in long standing Lesch-Nyhan syndrome	39
Characteristic ultrasonographic appearance of a large renal oncocytoma	426
